Morning Seb and Vianney,

Just a FYI: I got this email below from the joint community associations that surround our BIA about the Canadian Tire next to Coventry. I have reached out to them and had a good chat with Gisele Warrington the manager. They have assured me that things are so far manageable and that she'll reach out to me if needed.

See email below and my response to the community.

Hi Chris,

I just spoke to the manager. They've assured me that besides a lot of anti-maskers coming in, and the odd rowdy bunch, they are still managing. They have indeed sold out of certain items. These no talk this far or shut downs or anything. To their knowledge that all speculations. I will continue to check in on them and they now have my contact info as well.

Thanks for sharing this info it's very helpful.

Nathalie

Subject: Ottawa Occupation: Canadian Tire on Coventry

A neighbour who works at the Coventry Canadian Tire told us that they are getting a lot of customers at the store. Not surprising given the store is next to the Blockade supply base. They have sold out of gas cans, Canadian flags and both the powerful handheld horns and the smaller (marine) ones. I was told that the store may close or at least limit sales to on-line pick ups because of incidents, and this may be a provincially-wide decision. Staff were advised but no decision had been taken yet apparently. Chris
